**Please Note:** These are approximate run times for a PC operating Windows XP Professional with a 2.1GHz Pentium® 4 processor, 512MB RAM and a 64MB RAM video card and no other programs loaded. Run times may vary depending on hardware and software configurations. These run times include a very modest time allowance for reviewing Chapter Summaries, Checklists and the content of Learn More material incorporated in the program. Your review time for Learn More content may vary significantly from these estimates.
